

## Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working in an atmosphere which encourages the highest integrity with empowered collaboration, along with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and providing a safe atmosphere for their employees to work in. Also, they have applied numerous programs within the corporation so as to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any comments or questions, as they are happy to promote and share this policy with a greater understanding of their efforts. They are very devoted to improving and preserving the environment. AxleTech has an EHS program which not just protects the natural environment but which also actively protects their staff and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles for both military and commercial applications, which could comprise anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specifically designs axles so as to meet particular application demands. They have over one thousand various axle specs in their existing offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various commercial and military applications. They offer complete axle assemblies for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have added details which could be found in the "ISAS" product selection.
