

## Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the largest independent spreader manufacturer around the globe. They are a devoted manufacturer of spreaders intended for numerous several applications like for instance the handling of containers, swap bodies and trailers.

Engineering is done in house by means of making use of all the most up-to-date CAD systems and FEM tools. The ELME company now employees more than one hundred twenty five staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-around the world.

The product range of ELME include numerous spreaders intended for various trailer and container handling operations. Several of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a wide variety of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In 2008, they made over one thousand one hundred fifty spreaders by means of making use of top quality parts in order to ensure reliability and excellent standards while offering reasonable prices. Major characteristics of ELME comprise design simplicity, market reaction and innovative modular spreader concept.
