

Clark Forklift Part

Clark Forklift Part - Performing globally, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those operating in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive models of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Supplier is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has selected the particularly economical and beneficial system of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most efficient approaches of manufacturing facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and brilliance of their products while minimizing costs. The new value engineering program combines innovative product development and offers improved consumer support and service within the industry.
